ORGANIC Jaggery

Introducing the purest taste in nature, JAGORAY Organic Jaggery. Handcrafted using time-honoured methods since 2010.

We use only organic methods to grow sugarcane on our own land, and we have our own jaggery production unit. Additionally, our land is approved by NOP and NPOP.

With unadulterated goodness, Jagoray embraces no additives, chemicals, or preservatives, just the simple offerings of nature. Our special blend is crafted from native organic sugarcane concentrated juice, fused harmoniously with lime and plant-based clarifiers.
